DS concrete block making machine

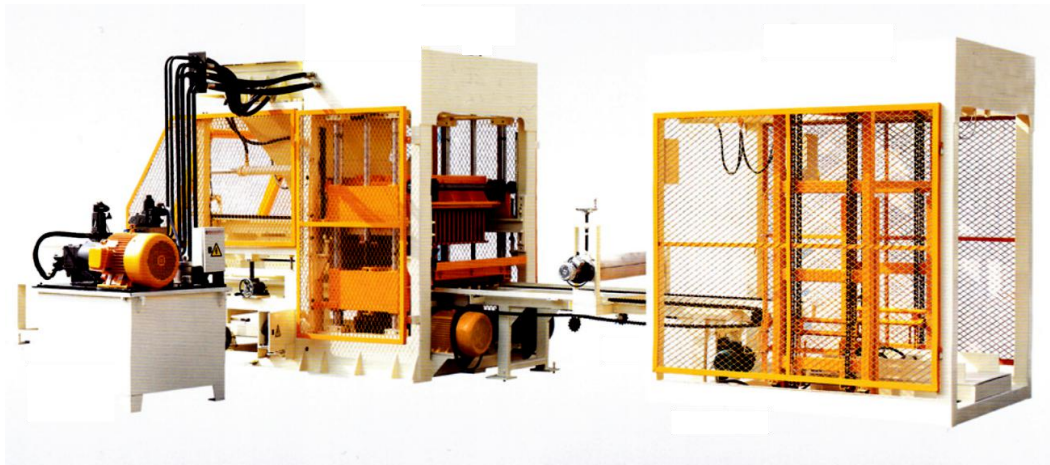

Keywords: concrete block making machine,concrete block machine for sale

DS concrete block making machine is construction equipment for precast concrete or ready-mix products, as a professional concrete block machine manufacturer, we supply high quality and competitive price concrete block machines for sale which own wind resistance and excellent heat installation.

DS concrete block making machine characteristics

1. Model: DS4-15, DS4-20, DS6-15, DS8-15, DS10-15
2. Can produce hollow blocks, porous blocks and standard blocks
3. Structure includes control system, wooden pallets or bamboo pallets, mold usage area, machine hydraulic motor bunker, machine hydraulic pump, hydraulic cooling, vibration system, and working pressure etc.
4. Automatic line for block, brick, and paver making machine
5. Adopts more advanced material-feeding technology
6. Continuous improvements and ambitious development of new technologies improves production capacity and quality of Production systems
7. Certificates: CE/SGS/ISO9001
8. Brick form mold can be designed in accordance with user requirements

concrete block making machine main parts

Concrete block making machine advantages

1. Low energy consuming
2. Competitive price for concrete block machine for sale
3. Japanese MITSUBISHI PLC/German IMENS or internation ABB Brand motors
4. Block mould adopt heat treatment technology
5. Use worm wheel and screw mandrel to adjust the materials feeder platform
6. Unique water proof structure
7. Super high intensity, produce various of blocks, bricks
8. Manufactured from steel or high quality metal or polymer materials

DS4-20 block making machine main parameters

Block specifications(mm)	390x190x190(hollow block)	240x115x90(porous brick)	240x115x15(standard brick)
Number per pallet (block)	4	12	24
Molding cycle(seconds)	35	35	35
Block/8 hours	3290	9870	19740
Bamboo pallet size(mm)	850x580x(20-30)		
Machine power	20kw

DS4-15 concrete block making machine main parameters

Block specifications(mm)	390x190x190(hollow block)	240x115x90(porous brick)	240x115x53(standard brick)
Number per pallet (block)	4	12-14	24-16
Molding cycle(seconds)	15-20	15-20	15-20
Block/8 hours	5760	17280-20160	34560-37440
Bamboo pallet size(mm)	850x580x(20-30)		
Machine host power	25.5kw		
Machine size	5420x1550x2940		
Total weight(t)	7.5		

DS6-15 concrete block making machine main parameters

Block specifications(mm)	390x190x190(hollow block)	240x115x90(porous brick)	240x115x53(standard brick)
Number per pallet (block)	6	15	30
Molding cycle(seconds)	15-20	15-20	15-20
Block/8 hours	8640	21600	47520
Bamboo pallet size(mm)	850x580x(20-30)		
Machine host power	29.55kw		
Pallet size (mm)	wooden	970x680x(40±1)	
	bamboo	970x680x(20-30)	
Total weight(t)	10.5		
Rated pressure of hydraulic system	21MPa		
Molding cycle	15-20 seconds		
Overall dimensions(mm)	6300x1680x2850		

Concrete block machine for sale is designed with high quality, better performance and reasonable price, and production of all types of concrete blocks, concrete slabs, concrete bricks and concrete pavers produced by concrete materials which is manufactured by concrete plants or concrete mixers.

Dasion produce concrete block making machine at low cost and automatic control system, and lay concrete block paving is suitable for larger projects where efficiency and health and safety are of utmost importance. Concrete blocks and bricks are normally used for buildings walls.

DS8-15 block making machine main parameters

Block specifications(mm)	390x190x190(hollow block)	240x115x90(porous brick)	240x115x53(standard brick)
Number per pallet (block)	8	22	45
Molding cycle(seconds)	15-20	15-20	15-20
Block/8 hours	11520-15360	30240-40320	60480-80640
Bamboo pallet size(mm)	970x840x(30-40)		
Machine host power	33.5kw		
Total weight(t)	11.8		
Rated pressure of hydraulic system	21MPa		
Molding cycle	15-20 seconds		
Overall dimensions(mm)	8400x1700x2950		

DS10-15 block making machine main parameters

Block specifications(mm)	390x190x190(hollow block)	240x115x90(porous brick)	240x115x53(standard brick)
Number per pallet (block)	10	27	54
Molding cycle(seconds)	15-20	15-20	15-20
Block/8 hours	14400-19200	34560-40680	73440-97920
Bamboo pallet size(mm)	8200x2000x2950		
Machine host power	36.55kw		
Total weight(t)	14.8		
Rated pressure of hydraulic system	21MPa		
Molding cycle	15-20 seconds		
Overall dimensions(mm)	8200x2000x2950
