10-12CBM cement truck mixer

Keywords: cement truck mixer,concrete mixing truck

10-12CBM cement truck mixer is a concrete mixing truck used to transport large quantity of concrete materials to construction site and traveling time is limited in one and half hour driving distance to keep the materials in liquid. Concrete mixing truck can also mixing concrete materials.

The features of 10-12CBM cement truck mixer

- ◆ Mixer body for cement transport trucks is made from stainless steel or steel to ensure the mechanical strength, such as bending strength, cantilever strength and compression strength
- ◆ Service life of drum is also increased by restricting unnecessary rotating of the drum (constant-speed-drive)
- ◆ Operator seat is comfortable, and there is a control platform in the driving house, the operator can stop the drum rotating easily by pressing the button
- ◆ Smooth surfaces and fewer edges, covers or a second drip ring, to minimise soiling
- ◆ Low fuel consumption and designed Comfort
- ◆ Electronics diesel engine can ensure considerable fuel-saving
- ◆ Cooperation with the truck manufacturers to ensure perfect coordination with the respective chassis
- ◆ Produce wet or dry concrete
- ◆ Designed with operating platform on the rear with safety ladder

10-12CBM cement truck mixer can work with concrete placing boom, concrete pump, concrete mixers and concrete batching plant, especially used with concrete mixing plants to protect the environments.

Cement truck mixer structure

Safety is important for operator and others, and how to operate a concrete mixing truck?

Important part: the operators should be trained in a while time, especially hand signals and warning signals, different types of concrete mixing trucks should be told the introductions detail.

10-12CBM cement truck mixer main technical parameters

Model	10m3	12m3
Overall size (mm)	9230 (L)x2496(W)x3850 (H)	9870(L)x2500(W)x3990 (H)
Tank body dimension(mm)	5370xΦ2300	4720xΦ2300
Mixing volume(m ³)	10	12
Feeding speed (m ³ /min)	≥3	≥3
Unloading speed (m ³ /min)	≥2	≥2
Discharge residue rate (%)	≤0.5	≤0.5
High pressure oil pump	HPV089MHR\20DBC13N, Italy	ABK pump,Italy
Hydraulic motor	MF089V\20CBN113535 , Italy	ABK motor,Italy
Reducer	PMB7asP	PMB7.1sP,Italy
Water supply system	Water supply by air pressure (450L water tank), homemade sprinkler	
Air-condition	SINOTRUK special air condition	SINOTRUK special air condition
Chassis (4*2)		
Manufacturer	SINOTRUK Motors CO.,Ltd	
Model	ZZ1257N3848W	ZZ1257N4047N1
Wheel base (mm)	3825+1350	4025+1350
Tread f/r (mm)	2022/1830	2022/1830
Max. Speed (km/h)	86	78
Steering system	Recirculating ball steering, power steering	Imported ZF8098 hydraulic power steering
Transmission	Manual	Manual
Brake system	Dual circuit air-pressure braking system	
Engine (Euro-IV)		
Model	WD615.95E	D10.34-31
Max. Power (hp)	336	340
Engine type	L6, supercharged inter-cooling diesel engine	L6, Water-cooled, 4-strokes supercharged inter-cooling diesel engine
Fuel type	Diesel oil	Diesel oil
