High-speed railway track board oscillator equipment

Keywords: High-speed railway track board oscillator equipment,concrete vibrator price

High speed railway track board oscillator equipment is used in the high speed railway without residue, Plate (Japan Plate, Bjorn board, radar and so on). And DASION provide reasonable concrete vibrator price. The manufacture of the large concrete prefabricated components, such as the construction of the road, railway, bridge, tunnel concrete, it can also be used in the construction of T simply supported beam, I-beam and so on.

High-speed railway track board oscillator equipment features

1. It features high exciting force, adjustable frequency; proper amplitude, light weight, easy to use, high efficiency, and good effect to component-compacting concrete.
2. This product awarded Science and Technology achievement award, and applied for national patent.
3. Model: DBP150-22,DBP100-22,GZ150,GZ100
4. Compact design prolong service life
5. Electric vibrator motors or driven by fuel resource which allow operation at either 50 or 60Hz
6. Flexible shafts: eight different shaft lengths are available ranging in size from 2 to 21-feet
7. Rubber vibrator heads: ideal for high production work and epoxy coated rubber

High-speed railway track board oscillator equipment advantages

1. Rugged control panel withstands rough handling
2. Powers up to three Multiquip 2" high-cycle vibrators or two of Dasion vibrator heads
3. Engine — powered by an 9.5 HP Honda GX-Series with low oil shutdown.
4. Full-panel GFCI protection that is OSHA and NEC compliant.
5. Used for high railway with especially design

GZ series concrete vibrator technical data

Type	unit	GZ150	GZ100
In put	Ph./Hz/V	3/250/150	3/380/80-120
Power	Kw	1.5	2
Freq.	Hz	150	80-120
Amplitude	mm	0.8	1.0-1.5
Exciting force	KN	12	8-18
Weight	kg	22	29

DBP series concrete vibrator technical data

Type	unit	DBP150-22	DBP100-22
In put	Ph./Hz/V	3/380/50	3/380/50
Power	Kw	22	22
Out put	Hz	3/250/150	3/380/80-120
Remarks	mm	27 Road preset control	several Road preset control

But we operate these machines, should reference with general safety rules, such as read and understand all instructions, operating the engine in a well-ventilated, outdoor area. We also produce the High speed railway track board oscillator equipment in accordance with clients' requirement, and provide competitive concrete vibrator price and high quality.
