Vibrators with built-in motors

Keywords: vibrators with built-in motors,high frequency concrete vibrator

DASION is one of professional concrete equipment supplier from China, produce vibrators with built-in motors and high frequency concrete vibrators or high-frequency power complete equipment used for construction projects.

Vibrators with built-in motors are mainly used in the construction of water conservancy project, electric power project, harbor, large dam, bridge, road, high building, culvert, and foundation pile.

Vibrators with built-in motors/high frequency concrete vibrators features

1. The frequency converter has the functions of preventing input phase short, input under-voltage, DC over-voltage, over current, over load and overheat.
2. The vibrator has a high vibrating effect, high efficiency and low noise.
3. Main model: ZDN85, ZJB200,ZJB150
4. Consisting of bolts, is poker concrete vibrators
5. Production simple, and bottom price, more cheaper than pneumatic concrete vibrators
6. Driven by electric, used in safety conditions
7. Low consumption, easy to move and portable, can be used in wet, dry or ash environment
8. Widely used for parts, assemblies tests; aggregate hopper pressure etc.
9. Used or most of types of machine

ZDN85 concrete vibrators technical parameters

Type	unit	ZDN85
Diameter	mm	85
Length	mm	480
Frequency	HZ	197
Amplitude	mm	1.2
Power supply		42V, 3~200Hz
Power	KW	1.0
Weight	kg	17

ZJB high frequency concrete vibrators technical parameters

Type	unit	ZJB200	ZJB150
Capacitance	KVA	4.5	8.5
Input	Ph./V/Hz/A	3/380/50/8.3	3/380/50/11.6
Output	Ph./V/Hz/A	3/48/200/54	3/48/150/102
Weight	kg	78	108
Overall dimension	mm ²	597x260x380	655x300x418
