WBZ stationary concrete mixing plants

Keywords: stationary concrete mixing plants,stationary concrete batching plant

Stationary concrete mixing plants are stationary concrete batching plant and its product range all kinds of concrete, precast pavers, pipes, blocks, bricks etc., and which is stabilized soil built-up plant. Stationary concrete plants can be designed in different capacities and specifications.

Features of Stationary concrete mixing plants

- ◆ Designed for maximum efficiency and reliability of yield
- ◆ Match expectations of good quality and high performance concrete mixing machine
- ◆ Equipped with one or two concrete mixers, and aggregate feeding system, weighing system, mixing system and control system approved CE
- ◆ Productivity made by applying a mixing time of suitable time in accordance with technical specifications

Advantages of Stationary concrete mixing plants

- ◆ Function of making production includes bucket type, skip type, belt type application and useful
- ◆ Located in an industrial building specially designed to limit the impact on the surrounding environment
- ◆ Able to correspond to the different requirements of the market;
- ◆ Able to meet the quality standards and the functional level in both production and the environment sectors

High production performance, and reliable components (Italy mixer and PLC automatic control system)

Stationary concrete batching plant main technical parameters

Model		WBZ300	WBZ400	WBZ500	WBZ600
Productivity		300t/h	400t/h	500t/h	600t/h
Measure mode		Volume Measuring	Volume Measuring	Volume Measuring	Volume Measuring
		Computer measuring	Computer measuring	Computer measuring	Computer measuring
Speed governing mode		Frequency control	Frequency control	Frequency control	Frequency control
		Electromagnetic speed governing	Electromagnetic speed governing	Electromagnetic speed governing	Electromagnetic speed governing
Control mode		Automatic	Automatic	Automatic	Automatic
		Manual	Manual	Manual	Manual
Measuring accuracy	Aggregate	±3%(volume)	±3%(volume)	±3%(volume)	±3%(volume)
		±2%(electron)	±2%(electron)	±2%(electron)	±2%(electron)
	powder	±2%(volume)	±2%(volume)	±2%(volume)	±2%(volume)
		±1%(electron)	±1%(electron)	±1%(electron)	±1%(electron)
Water	±1% - ±2%	±1% - ±2%	±1% - ±2%	±1% - ±2%	
Power		88kW	105kW	158kW	168kW
Total weight		39t	41t	50t	54t
